RE: Lorson Estates – Application Numbers SP-8-12-04 and P-8-3-04 and ZB-8-2-04

Dear Marcie,

We have revised the above referenced applications consistent with Town Council request to satisfy R-4 zoning. Currently, Town of Davie Planning and Zoning staff is reviewing the revised application for compliance with Town requirements.

As you know, we were anticipating being scheduled for the March 22<sup>nd</sup> Central Broward Water Control District ("Central Broward") for them to consider the pending applications for Lorson Estates. Although we submitted the materials timely, Central Broward staff was unable to review the materials and place us on the March 22<sup>nd</sup> agenda. Subsequently, the April 12<sup>th</sup> Central Broward meeting has been postponed due to the Passover Holiday. We now anticipate being on the April 26<sup>th</sup> Central Broward meeting agenda. As such, we are requesting that this item be deferred to the Town Council's first meeting in May (May 3, 2006). If you are in agreement with our request to defer, please advise the neighbors, so that they do not unnecessarily appear at the April 19<sup>th</sup> Town Council meeting.

Respectfully,

Manuel Synalovski, AIA

### **Zoning History**

**Related Zoning History:**

Records indicate that the existing Future Land Use Plan Map designation and Zoning classification were in place at the time of annexation.

**Concurrent requests on same property:**

*Site Plan Application* (SP 8-12-04 Lorson Estates), this site plan application is for eleven (11) single-family homes.

*Plat Application* (ZB 8-3-04 Lorson Estates), this plat application is for eleven (11) lot specific parcels.

### **Application Details**

The petitioner is proposing to construct a single-family residential development on the 4.37 Acres (190,675 Square Feet) subject site. The subject site is located on the northwest corner of Southwest 14<sup>th</sup> Street and Southwest 130<sup>th</sup> Avenue.

Neighboring to the north of the subject site is a single-family home zoned A-1, Agricultural District. To the east is a single-family residential development zoned Planned Residential District (PRD) - 5. Contiguous to the south are single-family homes zoned E, Estate Dwelling District. Moreover, to the west are single-family homes zoned A-1, Agricultural District.

Currently, the subject site is zoned A-1, Agricultural District, which is a valid Town of Davie zoning district. The petitioner plans to develop eleven (11) single-family homes on the subject site. Therefore, the petitioner has requested to rezone the subject site to R-5, Low Medium Density Dwelling District to permit this use.

The subject site's Land Use Plan Map designation is Residential 5 DU / Acre. The Town of Davie's R-5, Low Medium Density Dwelling District zoning designation is consistent with the underlying Land Use designation.

---

### **Applicable Codes and Ordinances**

*Section 12-307 of the Land Development Code:* review for rezonings.

*Section 12-81 of the Land Development Code:* Conventional Multi-family Development Standards, R-5, Low Medium Density Dwelling District, requires the following minimums: lot area of 7,000 square feet, frontage of 75 feet, front setback of 25 feet, side and rear setbacks of 15 feet, maximum building height of 15 feet.

---

### **Comprehensive Plan Considerations**

#### **Planning Area:**

The subject property falls within Planning Area 3. Planning Area 3 is bound by I-595 on the north side, I-75 on the west side, SW 14 Street on the south side and Flamingo Road on the east side. The planning area consists of residential uses developed at a density of 3 to 10 dwellings per acre, including the Shenandoah development, occupying the western half of the planning area, and several mobile home subdivisions.

#### **Broward County Land Use Plan:**

The subject site falls within Flexibility Zone 113. The Broward County Land Development Code requires that any changes or waivers to requirements of development permit applications be reviewed and approved or disapproved by the municipality with final approval by Broward County Commission.

#### **Applicable Goals, Objectives & Policies:**

*Future Land Use Plan, Objective 17: Land Use Compatibility and Community Appearance, Policy 17-2:* No property within the Town shall be rezoned to a zoning district that is not in compliance with the Davie Future Land Use Plan.

*Future Land Use Plan, Objective 17: Land Use Compatibility and Community Appearance, Policy 17-6:* Town land development regulations shall address incompatible land uses through requirements such as buffering and setbacks.

*Future Land Use Plan, Objective 17: Land Use Compatibility and Community Appearance, Policy 17-7:* Adopted land development regulations shall continue to set forth setbacks or separation regulations, landscaping requirements, and minimum open space criteria to enhance living and working environments.

---

### **Staff Analysis**

The purpose of this request is to rezone the subject site from A-1, Agricultural District to R-5, Low Medium Density Dwelling District. According to the existing Land Development Code,

R-5 zoning district allows five (5) multi-family dwelling units per acre, while A-1 zoning district only allows one (1) single-family dwelling unit per acre.

This rezoning is also consistent with the Comprehensive Plan and Land Development Code. Development of this site as proposed does not exceed what was anticipated by the Future Land Use Plan Map designation, which is Residential 5 DU/Acre.

---

## Findings of Fact

### Rezoning:

#### **Section 12-307(A) (1):**

**The following findings of facts apply to the rezoning request:**

- (a) The proposed change is not contrary to the adopted comprehensive plan, as amended, or any element or portion thereof;

*The Future Land Use Plan Map designates the parcel as Residential (5 DU/AC), and the comprehensive plan allows single-family dwelling density to be developed in this residential land use category.*

- (b) The proposed change will not create an isolated zoning district unrelated and incompatible with adjacent and nearby districts;

*The requested R-5, Low Medium Density Dwelling District is related and compatible with the adjacent single-family residential communities to the east zoned Planned Residential District (PRD – 5).*

- (c) Existing zoning district boundaries are logically drawn in relation to existing conditions on the property proposed for change;

*The existing A-1, Agricultural District boundaries are logically drawn.*

- (d) The proposed change will not adversely affect living conditions in the neighborhood;

*The development of eleven (11) single-family homes will not have adverse impacts on the surrounding area. This residential density is permissible to abutting properties with the same land use designation.*

- (e) The proposed change will not create or excessively increase automobile and vehicular traffic congestion above that which would be anticipated with permitted intensities or densities of the underlying land use plan designation, or otherwise affect public safety;

*The traffic generated by eleven (11) single-family homes is what the land use plan anticipated. Prior to final approval of the concurrent site plan, off-site improvements shall be requested of developer.*

- (f) The proposed change will not adversely affect other property values;

*Surrounding property values will not be adversely impacted by the development of single-homes on the subject site. Single-family homes currently exist on all abutting properties.*

- (g) The proposed change will not be a deterrent to the improvement or development of other property in accord with existing regulations;

*Development of the subject site will not deter development or improvement of adjacent parcels. The subject site proposes to tie in with future residential development to the north.*

- (h) The proposed change does not constitute a grant of special privilege to an individual owner as contrasted with the welfare of the general public;

*This request is a privilege that can be afforded to any owner that has a parcel that meets the Land Development Code's minimum requirements to achieve the zoning classification.*

- (i) There are not substantial reasons why the property cannot be used in accord with existing zoning.

*The subject site can be developed according to the existing zoning district standards; however the requested designation is consistent with the land use plan.*

- (j) The proposed zoning designation is the most appropriate designation to enhance the Town's tax base given the site location relative to the pattern of land use designations established on the Future Land Use Plan Map, appropriate land use planning practice, and comprehensive plan policies directing land use location.

*The proposed zoning designation is consistent with the Future Land Use Plan Map and is therefore the most appropriate designation to enhance the Town's tax base.*
